with the World Peace Cross, a chapel, and the Biberkopf in the background

THE WALSER VILLAGE OF WARTH

Warth am Arlberg – a high plateau rich in history and charm.

Perched at 1,500 meters, the Walser village of Warth lies amidst an impressive mountain landscape. Since the 14th century, it has been characterized by authenticity, community, and a deep connection to nature.

Typical of Warth is the organic layout of several sparsely distributed plots on the high plateau. It defines the spaciousness and tranquility of the village far from mass tourism and close to the alpine way of life.

Pastor Johann Müller wrote an important chapter in the village's history, being regarded as a skiing pioneer in 1894. Using long wooden skis from Sweden, he made his way to Lech and thus laid the foundation for skiing in the Arlberg region.

With the first ski lifts in the 1960s and the expansion of the federal highways, tourism grew steadily. Nevertheless, Warth preserved its Walser village character which continues to shape the town's appearance and way of life to this day.

Despite its size, Warth offers a well-developed infrastructure with shops, sports retailers, ski schools, restaurants, and a modern ski resort – comfortable, family-friendly, and free of the hustle and bustle.

A cultural hub is the Ski museum Warth, which focuses on the history of skiing and the Olympics. Next door, the Stuba Lädele invites visitors to linger with regional products and handicrafts.

Together with Hochkrumbach, Warth has around 170 year-round residents. The nine hotels are mostly family-run, often by the second or third generation. Personal hospitality, tranquility, and proximity to nature make the town a temporary home.

WARTH

View to Warth with Höllenspitze and Mittagsspitze in the background

THE WALSER VILLAGE OF SCHRÖCKEN

Schröcken – authentic Walser life between tradition and nature.

The Walser village of Schröcken lies at an elevation of about 1,260 meters in a spacious high valley at the foot of the Arlberg. Surrounded by gentle alpine pastures, striking mountain slopes, and unspoiled nature, this village was settled by the Walser people as early as the 14th century. To this day, their architectural style, language, and living traditions shape the village's character and give Schröcken its unmistakable charm.

Characteristic of Schröcken is its layout of several, widely scattered plots that blend harmoniously into the landscape. This settlement pattern provides plenty of space, tranquility, and a special closeness to nature.

Instead of dense development, open spaces, old Walser houses, and a relaxed atmosphere dominate here ideal for guests seeking authenticity and relaxation. For many decades, Schröcken was a classic mountain farming village where life was governed by the rhythm of the seasons. Through careful tourism development particularly its integration into the Ski Arlberg ski area the town has opened its doors to guests from all over the world without losing its identity. Today, Schröcken combines alpine tradition with modern vacation amenities.

Despite its modest size, Schröcken offers a well-functioning infrastructure with ski schools, restaurants, accommodations, sports facilities, and good access to the ski area. Free ski buses ensure convenient transportation within the village and toward Warth.

Today, Schröcken is home to around 220 year-round residents. The hotels, inns, and guesthouses are predominantly family-run businesses – personal, warm, and authentic. It is precisely this genuine hospitality, combined with the vastness of the landscape and the tranquility of the Walser village, that makes Schröcken a place where you arrive, take a deep breath, and are happy to stay.

SKI HISTORY

The history of skiing in Warth-Schröcken dates back to the 19th century. The Warth pastor Johann Müller is considered the trailblazer, as he was the first to master the challenging route from Warth to Lech on skis through deep snow. Thanks to this pioneering feat, he is counted among the skiing pioneers of the Arlberg.

HARD LIVING CONDITIONS.

The Walser people, who settled the Tannberg region (Warth, Schröcken, Lech) in the 14th century, led a hard life as mountain farmers. Until the beginning of the 20th century, they lived almost exclusively from agriculture. There were no well-developed roads; the villages were accessible only via mule trails and simple cart tracks. Especially during the harsh winter months, the communities were often cut off for weeks at a time.

THE BEGINNINGS OF WINTER TOURISM SKI SCHOOLS & LIFT CONSTRUCTION.

A significant step in the development of tourism in Warth-Schröcken was the founding of the first ski schools. As early as 1926, Otto Fritz founded the Warth Ski School, followed by the Schröcken-Körbersee Ski School, which was established by Fritz Strolz in 1936.

During World War II and due to the introduction of the 1,000-mark spending limit, tourism came to a near standstill.

WARTH VILLAGE AROUND 1950

SALOBERLIFT 1966

It was not until years later that a slow recovery began, accompanied by renewed investment. In 1954, the first ski lift was finally installed in Warth, and additional lifts followed. With the founding of Skilifte Warth and the Schröcken Ski Lift Company in 1963, construction of the lift facilities on the Salober began.

In fact, it can be observed that the development of winter tourism was based on the steadily growing number of guests in the summer. In addition to the already existing inn “Zum Ochsen” (today’s “Tannberg” inn in Schröcken), the “Widderstein” inn opened in Nesslegg at the beginning of the 20th century. In Warth, visitors found accommodation in the rectory as well as at the “Tirolerhof” and the “Adler” inn. With the opening of the “Biberkopf” hotel in 1928, new standards were set: Thanks to a modern central heating system, winter guests could also be accommodated comfortably for the first time.

FLEXEN GALLERY, AROUND 1930

MILESTONES IN SKI RESORT DEVELOPMENT.

In the late 1970s, the connection between Warth and Schröcken was completed. The resulting “Warth-Salober” ski resort grew to become the third-largest in Vorarlberg. The region reached one of its most important milestones in the winter of 2013/14 with the connection to the Arlberg via the Auenfeldjet – after more than 41 years of discussions. In the winter of 2016/17, the Flexenbahn closed the last gap on the Arlberg, making it possible since then to reach all resorts on the Arlberg in just one day on skis. In December 2017, the Warth village lift finally began operations and has since connected the village center with the ski resort.

WARTH-SCHRÖCKEN TODAY.

Its long history and numerous milestones have transformed Warth-Schröcken into a modern, sports-oriented ski resort. As part of “Ski Arlberg”, it is not only part of Austria’s largest connected ski area but also ranks among the five largest in the world. Over 300 kilometers of groomed ski slopes, around 200 kilometers of deep-snow runs, and 85 lifts and cable cars offer an extraordinary variety and a unique skiing experience.

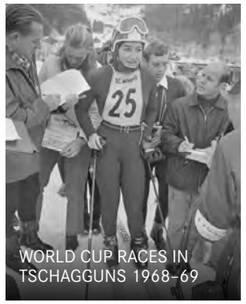

A detailed history of skiing can be found in the book „Geheimnisse der weißen Kunst – Skigeschichte Warth“. Further historical information about the municipalities can be found in the respective municipal chronicles.

OLYMPIC HISTORY - THE SKI-LEGENDS OF WARTH

A small village and great champions! From 1972 to 2022: 3 ski racers, 6 Olympic medals, including 3 gold and 2 silver medals for father and son.

WILTRUD DREXEL, BORN 1950.

She was the first woman to join Warther's Olympic success story. The ski racer was a four-time Austrian champion, won the bronze medal in the giant slalom at the 1972 Olympics in Sapporo (Japan), and won the Downhill World Cup in the 1968–69 season. In addition, she won the bronze medal in the downhill at the 1974 World Championships. She also achieved 22 podium finishes and five downhill victories in the World Cup. Today she still lives in Warth and runs her own guesthouse, on whose facade she proudly displays the Olympic rings.

WORLD CUP RACES IN TSCHAGGUNS 1968–69

WORLD CUP RACES IN TSCHAGGUNS 1968–69

- Winner of the 1968–69 Downhill World Cup.
- Bronze medal in the giant slalom at the 1972 Winter Olympics in Sapporo, Japan.
- Bronze medal in the downhill at the 1974 World Championships in St. Moritz, Switzerland.
- 5 World Cup downhill victories and an additional 22 podium finishes.
- Four-time Austrian champion.

HUBERT STROLZ, BORN 1962.

Exactly 34 years before his son Johannes began his own success story, Hubert won the Olympic gold medal in the combined slalom in Calgary (Canada) in 1988. He took silver in the giant slalom. Hubert "Hubsi" Strolz has over 30 podium finishes to his credit. Today he lives and works in the small mountain village of Warth. Together with his wife Birgit, he lives in Haus Hubertus, where Birgit looks after the guests and Hubert is a passionate farmer. As a ski instructor, he nurtures young talent at the Warth Ski School.

OLYMPIC WINTER GAMES IN CALGARY 1988

OLYMPIC WINTER GAMES IN CALGARY 1988

OLYMPIC WINTER GAMES IN CALGARY 1988

- Winner of the 1981–82 European Cup overall title.
- First World Cup podium finish in 1984 in Adelboden (Switzerland).
- Gold medal in the combined event and silver in the giant slalom at the 1988 Winter Olympics in Calgary (Canada).
- Over 30 podium finishes and one World Cup victory.

JOHANNES STROLZ, BORN IN 1992.

After two years at the Schruns Ski Academy, Johannes earned a spot at the Stams Ski High School. From there, his first successes followed, such as winning the bronze medal in the Super-G at the 2012 Alpine Junior Championships. In the 2017/18 season, Johannes won the overall title in the European Cup. Due to a lack of success in the World Cup, he lost his spot on the national team with the ÖSV in the spring of 2021. From then on, he had to organize his own training and even prepared his race skis himself. Completely out of the blue, on January 9, 2022, with bib number 38, he achieved his first World Cup victory in Adelboden (Switzerland). On January 22, 2022, he followed that up with a fifth-place finish in the slalom in Kitzbühel (Tyrol, Austria).

FURTHER INFORMATION.

FATHER & SON: HUBERT & JOHANNES STROLZ

OLYMPIC FAIRY TALE 2022.

It was one of the most emotional moments of the 2022 Winter Olympics in Beijing, a truly spine-tingling moment, during which all of Austria was on the edge of their seats and rooting for a man from Warth. A man who had always been considered a talent in the ski world, who emulated his father, the Olympic champion Hubert Strolz, but at the age of 29, hardly anyone believed he could make a major breakthrough. The Olympic Games became his big moment, his personal triumph. The story of an athlete with a genuine fighter's heart, who never gives up, remains humble, but always believes in himself, is passionately supported by his successful father, and is ultimately rewarded on the very big stage.

#STOLZAUFSTROLZ

- His fifth-place finish in the downhill race on February 10, 2022, laid the groundwork for his later victory in the Alpine combined event.
- Six days later, he won the silver medal in the Olympic slalom. Just like his father Hubert, who 34 years ago in Calgary won Olympic gold (in the combined) and silver (in the giant slalom) 34 years ago in Calgary.
- As a bonus, Johannes won the gold medal in the team event on the final day of the Winter Games, February 20, 2022.
- Rising Star of the Year: Named Rising Star of the Year 2022.
- Further successes have followed in the seasons since then.

WINTER

DEEP SNOW

Schröcken Rectory with Alpe Felle in the background

SKI RESORT SKI ARLBERG

Ski Arlberg is not only Austria's largest interconnected ski resort, but also ranks among the top five in the world. Combined with the legendary Arlberg quality, every day on the slopes becomes a special experience.

You can easily reach all the towns on the Arlberg – from Warth-Schröcken to Lech Zürs, Stuben, St. Christoph, and St. Anton – on skis.

WHAT AWAITS YOU IN THE SKI ARLBERG SKI AREA:

- Over 300 kilometers of perfectly groomed ski runs
- More than 200 kilometers of deep-snow runs
- 85 modern lifts and cable cars
- Diverse slopes for beginners and experts alike
- One of the regions in the Alps with the most reliable snow conditions
- Fun parks, attractions, and many other highlights

"DER WEISSE RING" SKI CIRCUIT.

This legendary ski circuit is a challenging half-day tour offering spectacular panoramic views. Across approximately 22 kilometers of slopes and about 5,500 meters of elevation gain, you'll find easy to moderately difficult runs as well as impressive viewing platforms. **TIP:** Visit the Kästle Museum (Rüfikopf mountain station) – an exciting glimpse into the history of skiing.

„RUN OF FAME" SKI CIRCUIT.

A spectacular ski tour through the entire Ski Arlberg ski area. The approximately 85-kilometer route, with about 18,000 meters of elevation gain, leads from the Dorfbahn Warth via the Saloberkopf, Lech Zürs, and St. Anton/Rendl and back. This route is dedicated to the pioneers of skiing as well as famous personalities from the worlds of sports and film who have shaped the Arlberg. **TIP:** Visit the "Hall of Fame" (Flexenbahn mountain station) – an interactive exhibition about skiing stars on the Arlberg.

NEW

„DER GOLDENE RING" SKI CIRCUIT.

A varied ski tour combining panoramic views, athletic highlights, and culinary delights.
TIP: Track your run using the iSki app and win a € 5 voucher.

SKI ARLBERG APP.

With the Ski Arlberg app, you always have all the important information about the ski area at your fingertips on your smartphone. The app is available for free in the App Store and on Google Play. You can also track the kilometers you've skied and automatically enter exciting sweepstakes.

SKI RESORT WARTH-SCHRÖCKEN

Warth-Schröcken is part of the Ski Arlberg ski resort and, thanks to its ideal northwestern exposure, is considered one of the snowiest regions in Europe.
The high altitude and numerous north-facing slopes ensure exceptional snow quality and guarantee pure skiing enjoyment well into the spring.

WARTH-SCHRÖCKEN SKI RESORT AT A GLANCE:

- 62 kilometers of varied ski runs
- 15 lifts and cable cars
- Elevation between 1,500 and 2,050 meters
- Particularly popular as a spring ski resort thanks to shaded north-facing slopes with excellent snow conditions
- Numerous freeride opportunities above the tree line

HIGHLIGHTS IN THE SKI AREA.

Funslope Steffisalp – perfect terrain for beginners
Panorama Photo Point – at Saloberkopf
Speed Check – near the Kuchlbahn, Run 260
Skimovie – your run on film, Run 290
Parallel Giant Slalom – near the Sonnencruiser, Run 259

In our sunny Salober Kinderland kids learn their first skills on skis in peace.

In the Salober Kids Club, the largest children's training area of Warth-Schröcken our ski lessons are the ultimate winter adventure.

PAULIS KINDERLAND

In Pauli's Kinderland at the Kitzeliftle in Warth, little ones can let off steam to their heart's content and learn to ski in a playful way on the practice lifts with the latest safety systems.

FREERIDE ELDORADO

Pure natural snow: Around 200 kilometers of untouched deep-snow runs make Warth-Schröcken a paradise for freeriders.

GUARANTEED FREERIDE EXPERIENCE.

As one of the snowiest ski resorts in the Alps, Warth-Schröcken offers the best conditions for powder days. North-facing slopes ensure high-quality snow, while runs above the tree line and short ascents open up numerous freeride options.

SAFETY IS OUR TOP PRIORITY.

Local ski schools offer daily freeride crash courses for a safe introduction to the backcountry. Additional professional programs for all skill levels guarantee fun and safety.

For detailed information and reservations, please contact our ski and alpine schools and guides.

FREERIDE HIGHLIGHTS.

- **Freeride Crash Course**
  The perfect way to quickly and safely dive into the world of freeriding.

- **Pastor Müller Freeride Tour**
  This tour follows the original routes of Johann Müller from the 19th century and leads through the terrain from Warth to Lech.

- **Arlberg Deep Snow Culinary Experience**
  A unique powder day, combined with culinary stops at selected huts and mountain restaurants.

- **Arlberg Freeride Safari**
  The XXL freeride tour on the Arlberg: From Warth-Schröcken, the route cuts straight through the “white gold” to St. Anton – a true highlight for experienced freeriders.

- **Heliskiing**
  The ultimate adventure for powder fans, one that is guaranteed to be unforgettable. Heliskiing is only possible in Austria on the Arlberg.

FREERIDING

“Klemm” freeride run to Schröcken

WINTER HIGHLIGHTS & EVENTS

SEASON OPENER - BACK TO SKI.

The perfect season-opening special for anyone looking to get back on the slopes. With professional guidance from experienced ski instructors, you can brush up on your technique, refine your movements, and enjoy that familiar feeling on the slopes again after just a few runs. In addition to technique training, ski tests, workshops, boot fitting, and other highlights are waiting to be discovered – paired with culinary delights and the impressive winter landscape of Warth-Schröcken.

SUNSKIING - THE BEST IS SAVED FOR LAST.

In Warth-Schröcken, you can enjoy skiing well into spring: While powder snow still beckons on the snow-sure north-facing slopes, sunny firn slopes invite you to a delightful day of skiing. On the Arlberg, that means: firn in the morning, carving on the north-facing slopes in the afternoon, and then relaxing on the sun terrace with a panoramic view.

Après-ski in style

It's not just the sun and mild temperatures that create the best atmosphere in spring. Live bands and DJs bring the sun terraces to life and put the perfect finishing touch on a successful day of skiing.

We love the 80s

Turn back time: we're bringing back the '80s! Bring out the bright, bold jumpsuits, patterned fleece sweaters, and jet pants, slip a headband over your perm, and put on your aviator sunglasses – for the end of the season, we're hitting the slopes just like back in the day.

FAMILY OFFER - KIDS' SNOW PROMOTION.

During the Kids' Snow Weeks, the youngest ski fans take center stage. A varied weekly programme featuring igloo building, cheerful puppet shows, interactive concerts, ski-doo rafting, and exciting kids' ski races ensures plenty of fun in the snow. Children not yet of school age, between 3 and 6 years old (please note age limits), receive a special bonus when staying for 7 nights in Warth-Schröcken, accompanied by at least one adult: a free 6-day 3-Valley ski pass as well as a free 4-day ski lesson.

FURTHER INFORMATION.

WE LOVE THE 80S SKI DAY

Skiing like in the Old Days

SNOWSHOE TOURS

Your hiking guide will lead you along secluded trails through the breathtaking winter landscape to pristine spots in the Hochtannberg area. Snowshoe tours are carefully selected based on weather and snow conditions.

GUIDED TOURS.

The weekly guided snowshoe tours are listed in the weekly programme. Additionally, individually guided tours can be booked through the ski/alpine schools and guides – day tours, half-day tours, or leisurely evening hikes are available.

SNOWSHOE RENTAL.

SUMMER

MOUNTAIN SUMMER

Cool off at Körbersee

HIKING

Warth-Schröcken captivates visitors with its unique mountain landscape, which invites you to hike and explore. Gentle alpine trails, scenic high-altitude routes, and breathtaking natural experiences make the region an ideal destination for leisure seekers, families, and ambitious mountaineers alike. Surrounded by crisp mountain air and unspoiled nature, a wide variety of tours await here, combining exercise, tranquility, and unforgettable views.

ROUTES & TOURS.

In Warth-Schröcken, hikers will find a dense network of varied trails – from leisurely valley loops to challenging high-altitude trails. The online tour suggestions on our website make it easy to plan your trips with elevation profiles, details, and GPS data. In addition, a free hiking map with several tour suggestions is available.

NATURE JUWEL: KÖRBERSEE.

Körbersee is one of the region's scenic highlights. Surrounded by mountain peaks, the lake offers a fabulous backdrop and is an ideal stopover or destination for many hikes. Whether as a picnic spot, photo opportunity, or oasis of relaxation – Körbersee captivates visitors in every season.

GUIDED TOURS & HIKING PROGRAM.

If you prefer to explore the region in company and with local expertise, you'll find a wide range of guided hikes. From an interesting herb-themed hike to an alpine summit tour – experienced guides share insights into nature, history, and local highlights. All dates are listed in the events calendar.

FAMILY HIKE

Hochalpsee and Widderstein

HIKING
THEMED TRAILS

Tannberg Themed Trail

This themed trail explores the settlement of Warth, Schröcken, and Lech, as well as the life and work of the Walser people on the Tannberg. At a total of 57 stations, so-called "wooden witnesses" vividly convey the history of the Walser people. Those who do not wish to hike the entire route can, of course, explore individual sections.

BOOK TIP:

"Auf den Spuren der Walser"

To make the hike even more tangible, a companion hiking guide has been published. The book is available at the tourist offices in Warth, Schröcken, and Lech.

Warth Village Trail – Sightlines

From the village center (tourist office), the trail leads to the church and the Walserhus, built in the traditional Walser style. Below the main street, the trail continues to the Warther Hof wellness hotel and, to the right of the Steffisalp Hotel, to the Wolfegg area. Above Warth, the trail returns to the village center.

TIP:

The "Sichtbar" panels display historical views that can be directly compared with today's landscape. A detour around the idyllic Seebachsee is also well worth it.

Start/Finish: Warth Village Square
Walking time: approx. 1 hour | **Difficulty:** easy

Schröcken Village Trail – Insights & Views

Starting at the church in Schröcken, the trail follows the old federal highway, passing the Gletschermühle, a natural monument dating back to the Ice Age. After crossing the bridge over the Fellbach, the trail leads to Alpe Felle, offering panoramic views of the village and the Seven Border Mountains. The trail then returns to the village center via the old Alpe Felle.

TIP:

At five stations along the trail, you'll learn fascinating stories about the surrounding area.

Start/Finish: Schröcken Village Square
Walking time: approx. 1 hour | **Difficulty:** easy

Lechweg

As one of Europe's last wild rivers, the Lech is something special – as is the Lechweg, which winds along the river and offers glimpses of the wild landscape. Stretching 125 km from its source at Formarinsee in Vorarlberg to the Lechfall in Füssen, the trail connects two states and five regions. Many highlights and charming accommodations await you along the route.

TIPS:

Luggage transport: The Lechweg shuttle will transport your luggage to your next accommodation.
Lech loops: Short detours allow for further discoveries to the left and right of the trail.
Maps: Hiking maps and guidebooks are available at the tourist offices.

FAMILY HIKING & ADVENTURE

NEW

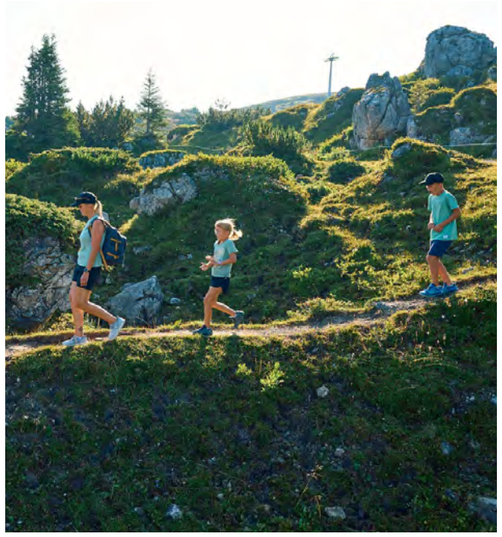

STEFFISALP CLIMBING COURSE.

Fun, games, and exercise for little adventurers!

Right next to the Steffisalp-Express mountain station, families can look forward to a very special highlight this summer: the new climbing course. The course invites children to test their agility, balance, and flexibility in a playful way.

The balance and climbing stations are designed in a winter theme and offer little adventurers a great way to get ready for the ski season.

While the children joyfully explore the course and let off steam, parents can relax and enjoy the magnificent mountain scenery and fresh mountain air.

MURMELE ADVENTURE & HIKING PASS.

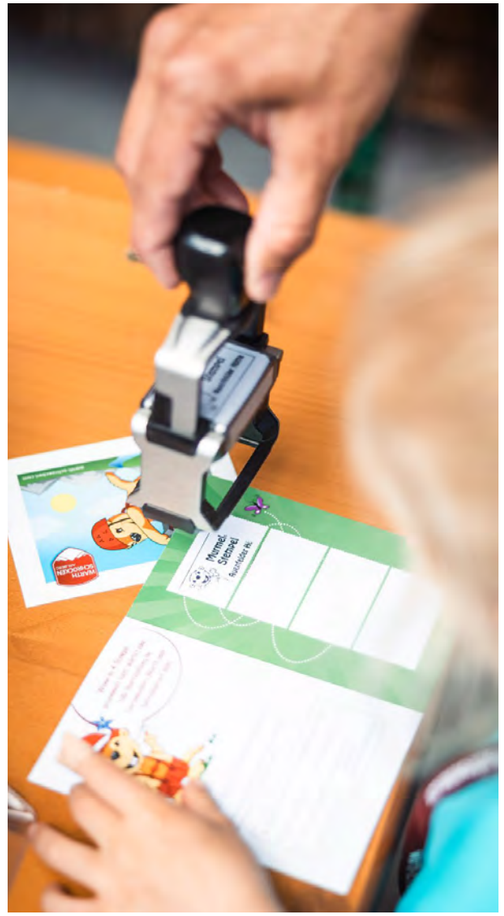

With the Murmele Adventure & Hiking Pass (available at the tourist office), every hike becomes an exciting adventure for children of all ages. Together with their parents, these little explorers set off through the mountains, eagerly collecting stamps along the way at various huts and adventure stops.

They are accompanied by our mascot Murmele, who tells exciting stories along the way. Once the stamp pass is completely filled, a great surprise awaits the little hiking enthusiasts at the tourist office.

MURMELE ADVENTURE TRAIL.

The Murmele Adventure Trail is a lovingly designed adventure hiking trail for families and young explorers. Along the roughly 2 km route, numerous exciting stations await with games, physical activities, and nature-based tasks – from balancing on tree trunks to climbing over small obstacles. Along the way, interesting facts about the mountains, the animals, and Murmele, the nimble marmot – are conveyed in a playful way.

Start/Finish: Schröcken-Nesslegg / Schröcken-Heimboden or vice versa
Walking time: 40 min
Difficulty: easy

SUMMITLYNX

The digital hiking badge in Warth-Schröcken. With SummitLynx, hiking becomes an interactive experience. The free smartphone app turns every hut or summit climb into a digital logbook: Reached destinations are recorded via GPS, documented with a photo and a short report, and saved in the app – all without an internet connection on site. This creates a personal hiking log that captures the most beautiful moments and experiences.

Once certain point totals are reached, there are also attractive hiking pins to collect:

To earn the popular pins, simply visit various hiking destinations in the region and collect points along the way. The collected points can then be exchanged at the tourist offices for a real pin (cost: € 3 per pin | € 5 per Tannbergbank).

The SummitLynx app shows at a glance which destinations are available in the region, how many points have already been collected, and how many are still needed – ideal for anyone looking to expand their hiking adventures.

HOW IT WORKS:
Download the app (iOS/Android) – start hiking – collect points and capture memories!

GEOCACHING

Geocaching is considered a modern take on the treasure hunt and combines physical activity, a spirit of discovery, and the experience of nature. In Warth-Schröcken, there are two particularly appealing yet challenging geocaching tours to choose from.

The routes are organized by theme and focus on sports and culture. On the “Pastor Müller and the White Gold” tour, geocachers follow in the footsteps of the clergyman who introduced skiing to the region in 1894. The “Walser Village & Natural Gems” route takes you through the history of the Walser people and past impressive natural landmarks.

BEFORE YOU START.

- Register at www.geocaching.com. There you’ll find general information about geocaching as well as details about the two tours in Warth and Schröcken.
- Each geocache is marked with coordinates that can be located using a GPS device or a GPS-enabled smart phone (the geocaching app is subject to a fee).
- The stamp cards for the two tours are available at the tourist offices.
- At selected caches, the stamp cards will be punched or stamped.
- Upon presentation of the fully stamped card, you will receive the popular “Tannberg Coin” as a souvenir at the tourist offices.

TRAIL-RUNNING

Unforgettable trail running moments at and above 1,500 meters.
The Warth-Schröcken hiking area offers ideal conditions for trail running.

The high altitude, combined with lower oxygen pressure, promotes the formation of red blood cells – a natural training stimulus that improves health and performance while reducing stress. Thanks to the Steffisalp-Express and the hiking buses, even beginners can enjoy scenic panoramic tours with moderate elevation gains. Ambitious runners will find challenging routes, summit tours, and real challenges.

WEEKLY TRAIL RUNNING INTRODUCTORY COURSE.

The trail running introductory course offers the perfect introduction to this sport. No prior experience or special fitness level is required because in trail running, the focus is on experiencing nature, technique, and the joy of movement, not on speed.

More info & registration:
Warth-Schröcken Tourism
+43 5583 3515 | www.warth-schroecken.com

TRAIL RUNNING ROUTES.

For easy navigation, all trail running routes are clearly signposted. Each route is color-coded and clearly marked on the signposts. For more information, see the Trail Running Brochure, available at the tourist office or from your accommodation provider.

TIP: SEVEN SUMMITS TOUR.

Enjoy the mountains, cross borders, and do good at the same time: Every September, around 300 participants embark on the 7 Summits Tour, during which the seven border mountains around Schröcken are climbed in a single day. The focus is not on competition, but on a good cause. The proceeds benefit the aid organization ROKPA. www.rokpa.org

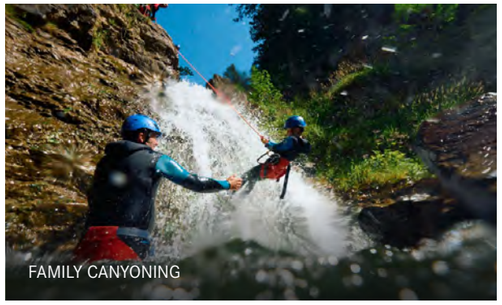

OUTDOOR ADVENTURES - BIG5

If you‘re looking for a new challenge, the Outdoor BIG5 in Warth-Schröcken offers five action-packed adventures at various difficulty levels. The program is designed for both adults and juniors.

The activities take place regularly according to a weekly schedule, but can also be booked individually directly with the outdoor providers.

THE OUTDOOR BIG5:

- Flying Fox
- Whitewater swimming
- Canyoning
- Karhorn via ferrata
- Schröcken Adventure Park

FAMILY CANYONING

ADVENTURE PARK

MOUNTAIN BIKE & E-BIKE

The stunning mountain region around Warth-Schröcken is perfect for exploring by (e-)bike. Mountain huts and alpine pastures invite you to take a well-deserved break at every turn. The combination of mountain biking and hiking – Bike & Hike – is also a wonderful way to enjoy the area.

GUIDED TOURS.

Every week, various guided tours, bike & hike tours, technical training sessions, and more take place in Warth-Schröcken and the surrounding area. You can find the dates in the events calendar on our website.

BIKE MAP.

The handy pocket folder “Bike Map Warth-Schröcken & Lech Zürs” is a free guide containing all the important information on the topic.

PLEASE NOTE:

- The mountain bike trails also serve as hiking trails. Please be considerate of one another.
- Please make sure to carefully close pasture gates and fences behind you.
- Pay attention to any signs and please ride your mountain bike only on the designated trails.
